([www.wysong.net](http://www.wysong.net)) TT

Add enzymes & fish oils (sardines/salmon) to above

## INGREDIENTS TO AVOID:

\* By-products of any type \* Ethoxyquin \* BHA/BHT \* Grain pieces/food fragments (*brewer's rice, corn gluten, ect.*) \* Corn as a 1<sup>st</sup> ingredient \* Sweeteners (*corn syrup, sucrose, ammoniated glycyrrhizin*)  
\* Artificial colors \* Propylene glycol (*toxic when consumed in large amounts, this is added to some "chewy" foods to keep them moist*) \* Fats or proteins named generically. For example: "animal fat", "poultry fat", or "meat meal" (*as opposed to the better quality "beef fat", "chicken fat", or "lamb meal".*)
